Work Environment & Culture

We offer a chance to make an impact - on our success, on our partner's success, on the pharmaceutical discovery and development paradigm as a whole, and on the general health and well-being of the world.

That excites us, we hope it excites you. If it does then we can offer you an informal, fast-paced, hard-working, highly international work-place where you can exploit your existing skills and develop new ones. Most of the time, we hope, Evolva can be fun.

What we cannot offer is a safe job, an unstressful job, or a sit in the corner office job. We need to deliver success for our partners and ourselves. At times that can be stressful, and at times not fun at all. And we don't expect people to stand on hierarchy - we want people who are prepared to roll up their sleeves and get things done.

We offer competitive salaries and payment for results. All employees have the right to shares or options.

If the above sounds like you, then we would welcome an application.

Please send your application and Curriculum Vitae, and some idea of what motivates you, to recruitment@evolva.com (<mailto:recruitment@evolva.com>). Applications should be in English.
